HE Ehud Barak

Prime Minister

Dear Excellency,

I was informed today by the office of the Governor of the Central Bank of Hungary that they were unfortunately unable to accept the conditions of your agency in the US.

At the same time I was requested to repeat the invitation to Hungary in a different form, which I hope will not harm your obligations. You will be not holding a lecture for a public audience but you will be meeting with Prime Minister Orbán, then separately with the Governor and having a private talk in the Central Bank in the company of 10 colleagues of the bank, if you are agree with that.

The invitation is valid of course for your lovely wife as well and all your costs regarding this visit will be covered by the Foundation of the Central Bank as it was originally planned before.

Please let me know when is it comfortable for you giving me please 3 different time options for your visit.

I hope you are doing well and everything is all right with you and with your family!

Best regards

Andor Nagy
